Works under general supervision and in accordance with an established work routine. May act as a lead worker over temporary staff and work in cooperation with other staff. Duties are grouped in related specialized areas which may require specific training and cross training; construction inspection, surveying, utility locating related to Digger's Hotline, drafting and mapping.

ESSENTIAL DUTIES AND RESPONSIBILITIES

The following duties are normal for this position. These are not to be construed as exclusive or all-inclusive. Other duties may be required and assigned.

- Provide daily construction inspection and record keeping of a variety of public works projects such as streets, sidewalks, sewers and water main.
- Operate survey instruments, data collector and survey software, and independently operate GPS (global positioning system).
- Assist the crew chief in establishing lines, grades and points in survey work.
- Drive and mark stakes and take measurements, record field notes and perform routine calculations.
- Gather and record as-built information and topographic data; may act as lead man on routine surveys such as two person data collection crew or bench mark surveys.
- Operate all tools and locating equipment to locate and mark all city facilities as needed to identify location for proposed nearby construction.
- Maintain records, receive notices and provide day to day coordination with Digger's Hotline, contractors, public utilities, citizens and other staff
- Coordinate in particular with city maintenance supervisors in regard to location methods and procedures and in upgrading and maintaining as-built mapping records.
- Compile monthly reports on location activity and right of way permits.
- Operate computer hardware, AutoCad drafting and GIS software for plan preparation and records keeping, Assist and coordinate with the Civil Engineering Technician and other public works staff to, check and keep up to date, street, sewer, water, right of way,

easement, house numbering, topographic, special assessment and other plans and maps and reports.

- Provide requested as-built information and assistance to contractors, other city staff and the general public.
- Maintain files, collect and record data on a periodic basis.
- Receive the public and answer central telephone system to answer questions related to city as-builts, permits and general public works procedures.
- Refer questions and requests, when necessary, to appropriate persons.
- Compose, type and edit correspondence, reports, memoranda and other material requiring judgement as to content, accuracy and completeness.
- Performs other related duties as assigned.

REQUIRED MINIMUM QUALIFICATIONS

Education and Experience:

- Graduation from a technical institute in Civil Engineering Technology or GIS/Cartography curriculum and one year experience in engineering fieldwork.
- Possess and maintain a valid State of Wisconsin driver's license is required.

Necessary Knowledge, Skills and Abilities:

- Skilled at construction inspection, technical drafting and as-built mapping, surveying and utility locating, record keeping and administrative work.
- Skill in operation of listed tools and equipment listed below.
- Ability to perform duties accurately and in a timely manner.
- Ability to effectively meet and deal with the public, co-workers, and supervisors.
- Ability to communicate effectively verbally and in writing with co-workers and the general public..
- Ability to handle stressful situations.

In evaluating candidates for this position, the City may consider a combination of education, training and experience which provides the necessary knowledge, skills and abilities to perform the duties of the position.

TOOLS AND EQUIPMENT USED

GIS and CAD software, personal computer, surveying equipment such as a total station, data collector, GPS rover, theodolite, differential level, Metro-Tec locating device for utility locates, field laptop, phone, copy machine, and fax machine.

PHYSICAL DEMANDS

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

While performing the duties of this job, the employee may be frequently required to walk over rough terrain; use hands to finger, handle or operate tools such as an 8-pound hammer or a

shovel, and to handle objects or controls; and reach with hands and arms. The employee must occasionally lift and/or move up to 100 pounds. The work may be strenuous and repetitive.

The work may also require sitting and operating a keyboard. Specific vision abilities required by this job include being able to sight through a telescopic instrument, close vision and the ability to adjust focus.

WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

The noise level in the work environment may vary from quiet to loud. The work may be indoors or outdoors, exposed to extreme weather conditions typical of Wisconsin.

SELECTION GUIDELINES

Formal application, rating of education and experience, oral interviews and reference check and job related tests may be required.

The duties listed above are intended only as illustrations of the various types of work that may be performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related or a logical assignment to the position.

The job description does not constitute an employment agreement between the employer and employee and is subject to change by the employer as the needs of the employer and requirements of the job change.
