Changes with Weights and Measures

(Oshkosh, WI.) The city of Oshkosh would like to inform citizens of a restructuring of job duties for two divisions. The Weights and Measures Division is now part of the Inspections Services Division effective January 1, 2012.

The city of Oshkosh has also entered into a six month contract with the state of Wisconsin to perform inspections required under state and municipal codes and statutes for weights and measures. This move was made as a cost saving measure for the city. Bob Stobb is currently the person conducting the inspections for the state in the city of Oshkosh.

Any questions or complaints regarding weights and measures should be directed to the Inspection Services Division general phone number, (920) 236-5050, and they will be forwarded to our contact person from the state. In the future if the city enters into a permanent contract we will have all questions and complaints directed to the contact person under that contract.
