Construction Set to Begin on Oakwood Road Detention Basin

(Oshkosh, WI.) The city of Oshkosh would like to notify residents that initial construction on the Oakwood Road Detention Basin is scheduled to begin on April 12, 2010. In addition to the construction of the basin there will be some lane restrictions on Oakwood Road to upgrade the storm sewer system.

The purpose of the Oakwood Road Detention Basin is to provide water quality and flood reduction benefits in the Sawyer Creek watershed. The detention basin will serve an industrial 100 acre watershed.

The excavation and restoration on the project is scheduled to be completed by the middle of July. The final planting of the safety shelf area will be completed by the middle of September.

If you would like more information, please contact Public Works at (920) 236-5065.
