HOUSING FEE REPORT

EXECUTIVE SUMMARY

In 2018, the Wisconsin State Legislature approved new legislation which requires villages and cities of 10,000 population or more to provide two separate annual reports related to housing affordability and housing fees in an effort to shed light and foster change on affordable housing issues across the state. The City of Oshkosh, along with 11 other communities in the region, elected to contract with the East Central Wisconsin Regional Planning Commission to prepare these reports. As such, a Housing Report Advisory Team was created so that input and feedback from all communities could be considered as the reports were prepared. Specifically, this document meets the requirements for Wis. Stats. 66. 10014 (Housing fee report).

HOUSING FEE REPORT REQUIREMENTS

Requirements of this report include the following elements:

1. In this section, "municipality" means a city or village with a population of 10,000 or more.
2. Not later than January 1, 2022, a municipality shall prepare a report of the municipality's residential development fees. The report shall contain all of the following:
 - a. Whether the municipality imposes any of the following fees or other requirements for purposes related to residential construction, remodeling, or development and, if so, the amount of each fee:
 - i. Building permit fee
 - ii. Impact fee
 - iii. Park fee
 - iv. Land dedication or fee in lieu of land dedication requirement
 - v. Plat approval fee
 - vi. Storm water management fee
 - vii. Water or sewer hook-up fee
3. A municipality shall post the report under sub. (2) on the municipality's Internet site on a web page dedicated solely to the report and titled "New Housing Fee Report." If a municipality does not have an Internet site, the county in which the municipality is located shall post the information under this paragraph on its Internet site on a web page dedicated solely to development fee information for the municipality.
4. A municipality shall provide a copy of the report under sub. (2) to each member of the governing body of the municipality.
5. If a fee or the amount of a fee under sub. (2) (a) is not properly posted as required under sub. (3) (a), the municipality may not charge the fee.

Part 2A: The City of Oshkosh imposes the following fees or other requirements for purposes related to residential construction, remodeling, or development. Only fees the City sets/collects are included in this report. Fees set by others, such as sanitary and utility districts, county and etc., are not included in this report. A complete copy of the fee schedule is included in Appendix A. Table 1 lists the types and amounts of these fees.

Part 2B: The total amount of fees under Part A that the City of Oshkosh imposed for purposes related to residential construction, remodeling, or development in the prior year is listed in Table 2. This table only includes building and remodeling 2020 permit fees. It does not include fees collected for electrical, plumbing, HVAC, and other permits.

Table 2: City of Oshkosh City of Oshkosh Fees Collected, 2020

Building Permit Fee (New Const. + Remodel Permits)	Impact Fees	Park Fees	Land Dedication or Fee in Lieu of Land Dedication Requirement	Preliminary Plat Approval Fees	Final Plat Approval Fees	Storm Water Mgmt. Fees	Water or Sewer hook-up Fees	Total Fees Collected
\$241,846	\$0	\$19,000	No land dedication in 2020, \$0 fees collected	\$0	\$0	\$0	\$8,606	\$269,452

Source: City of Oshkosh Planning Services and Inspection Services Divisions

The 2020 average total fee cost for a new residential housing unit has been calculated by dividing the total amount of fees collected by the number of new residential dwelling units approved in the City in the prior year (Table 3).

Table 3: City of Oshkosh Approved Residential Dwelling Units by Type, 2020

Single Family Building Units	Two Family Building Units	Multi-Family Building Units	Mobile Home Units	Total
49	14	120	9	192

Source: City of Oshkosh Inspection Services Division

Calculation: \$269,452 ÷ 192 = \$1,403

In 2020, the City of Oshkosh collected nearly \$1,403 in fees for each new residential dwelling unit approved within the municipality.

Remodeling projects do not typically include the following fees: impact, park, land dedication or fee in lieu of land dedication requirement, preliminary plat approval, final plat approval, storm

water management, and water and sewer hookup. In 2020, the City collected \$144,681 in remodeling fees.

Table 4 identifies the type of residential construction, total fees collected, and average fees collected per unit.

Table 4: City of Oshkosh Approved Residential Dwelling Units – Building Permit Fee, 2020

New Single Family Units	New Single Family Fees	Average per Residential Unit

1,431	\$144,681	\$101
Multi-Family Construction	Multi Family Fees	Average per Residential Unit
134	\$47,131	\$352
Totals		
1,614	\$241,846	\$150

The City of Oshkosh also collects fees for other purposes when issuing a permit. Those fees are determined by the residential and commercial structures, lots, utility services and other factors. Not all fees are assessed in all cases. The attached appendix identifies the fees that may be assessed in addition to the building fees.

Lastly, it should be noted that with the recent trend of creating mixed use developments (i.e. first floor retail and upper story apartments), many such projects are dealt with under commercial land development procedures. As such residential units associated with these projects are not considered in this report's platting and permitting data. This also has the effect of increasing the "cost per approved residential unit" as shown in Table 3.
