

# COVID-19 Rider Alert

Go Transit's regular services are still operational. However; based on the order of social distancing, GO Transit riders should practice this to the maximum extent possible and spread out inside the bus.

**Additionally, all GO Transit riders except those in mobility devices or needing additional assistance should board at the front door and exit the rear door of the bus.**

Rides should be taken with a purpose such as to employment, medical and other necessary appointments and for needed shopping. Social rides are highly discouraged and all riders must have a destination.
