

THE SAFE HOUSE

The Oshkosh Fire Department's Safe House is a mobile, hands-on fire safety classroom. The Safe House is divided into two different sections. In the first room is our "Hazard Hunt". This room is filled with over a dozen different fire and burn hazards for people to recognize and learn about so that they can make their own home a "safe house". Included are candles, overloaded extension cords, and many others.

The second room is a bedroom, which we fill with theater smoke and practice crawling out of a simulated house fire. Participants escape via doors and windows to their pre-arranged Safe Meeting Place.

Call **236-5249** today to set up a visit from our Safe House to your school, business, or community event.
