

PROGRAMS OFFERED BY THE OSKOSH FIRE DEPARTMENT

We here at the Oshkosh Fire Department believe that the best time to fight fires and accidental injury is before they occur. In order to accomplish this, we have devised a series of fire and life safety presentations. These presentations are available for free or for a minimal fee to schools, pre-schools, daycare centers, businesses, nursing or group home staff and residents, community organizations, and any other interested parties in the Oshkosh area.

SOME OF THE AVAILABLE TOPICS INCLUDE:

PRE-SCHOOL FIRE SAFETY

This FREE program has been developed to teach this high-risk age group basic fire safety. Included in the program: The firefighter is a friend, Smoke Detectors Crawling low under smoke, Getting out and staying out, Calling 9-1-1, Stop, Drop, and Roll, and Never playing with matches and lighters.

FIRE SAFETY FOR OLDER ADULTS

Since people age 65 and older account for half of the state's fire injuries and deaths, a special FREE presentation targets this age group. Topics range from basic fire safety to falls prevention to safe cooking and more.

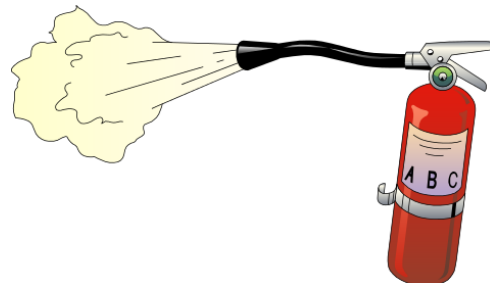

EXTINGUISHER TRAINING

There is a minimal fee for this program and the company must provide the fire extinguishers. This presentation allows its participants to learn the various types of fire extinguishers and how to use them. Each participant will show what they have learned by putting out a small, controlled fire on their own.

<u># of Participants</u>	<u>Fee*</u>
10 or less	\$35.96
11-30	\$53.94
31-50	\$71.92
51-70	\$89.90
71-90	\$107.88
91-110	\$125.86

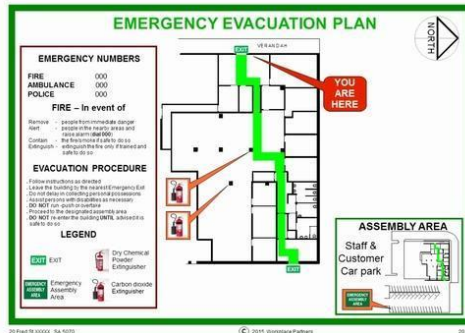

Please call 236-5249 for more participants

*Total fee—**NOT** per person

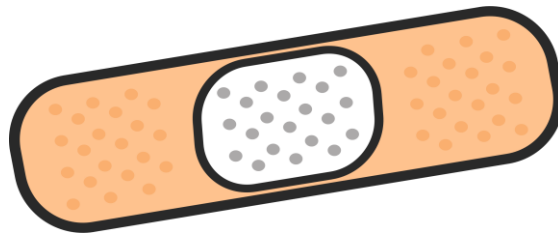

EVACUATION TRAINING

This FREE program is essential for any business. The presentation focuses on the safest practices to implement during any emergency situation (fire, chemical spill, etc.).

FIRST AID

This FREE program teaches basic first aid practices, including: What to do and not to do when arriving at an accident scene, how to stop bleeding, treatment of burns, etc.

SEASONAL SAFETY

This FREE program presents the, sometime, forgotten hazards of various holidays and seasons of the year. Holidays that can be covered are: Thanksgiving, Christmas, Fourth of July, and Halloween. Summer (bike helmets, fireworks, etc.) and winter (shoveling, frostbite, etc.) safety are also available throughout their respective times of the year.

Please note: These are just some of the programs offered by our Prevention Division.

Custom programs can also be developed given enough notice.
